New Dura-Power™ Commercial Electric Water Heaters

We are pleased to announce the launch of new Dura-Power commercial electric water heaters. The new 30 through 66-gallon models will replace the current DEL and DEN models as follows:

Current Model	New Model	Inlet Connection	Outlet Connection
DEL-30	DELC-30 100	Top	Top
DEL-40	DELC-40 100	Top	Top
DEL-50	DELC-50 100*	Top	Top
DEN-30	DENC-30 100	Top	Top
DEN-40	DENC-40 100	Top	Top
DEN-52	DEJC-50 100	Side	Top
DEN-66	DEJC-66 100	Side	Top

*Blanket included

All of the new models are dimensionally different from the current, with other changes to specific models including:

- the new DELC-50 model includes an insulation blanket
- the new DEJC-50 and DEJC-66 models have side inlets

The new models will be available with all of the same element configurations as the current and will be built-to-order in Fergus with the standard 5-day lead time.

Available now, orders will be changed to the new models once inventory of the current models is depleted.

Information on the new DELC, DENC, and DEJC models, including the revised specification sheet and installation manual, is available online at www.hotwatercanada.ca.

Please contact your A. O. Smith sales representative with any questions or for further details.

Thank you for your continued support of A. O. Smith water heaters.
