Diamondback
FLEXIBLE GAS PIPING

CB Supplies Acquires Diamondback CSST from Tecvalco

CB Supplies Ltd. is proud to announce that, effective Friday April 22, 2022, we have acquired all the assets and rights to the **Diamondback** line of CSST tubing and fittings from Tecvalco Ltd.

Diamondback is an established line of high-quality flexible CSST (Corrugated Stainless Steel Tubing) and fittings and is a fantastic addition to our broad range of products at CB Supplies. The Diamondback brand has enjoyed a strong reputation for the last 15 years in Canada and the United States and we are excited to be able to grow this business through our CB Supplies locations.

Tecvalco Ltd. is a manufacturer and master distributor of products that are engineered specific to the natural gas, oil, water and waste water industries.

CB Supplies Ltd. is a Canadian manufacturer of PEX and PE-RT tubing and a master distributor of a wide variety of products in the plumbing & heating, HVAC, refrigeration, pump & waterwell and pool & spa markets, selling through our wholesale partners in Canada and the USA. CB Supplies has four locations in Canada (Mississauga ON, Surrey BC, Calgary AB and Bois-Des-Filion QC) and a network of stocking representatives in the United States, along with our sister company, American Granby Inc. located near Syracuse, NY.

I would like to thank Mike Menger and his team at Tecvalco for their support during this transition of the Diamondback CSST line.

For more information, please reach out to your local CB Supplies sales rep or contact Greg Schaefer at greg.schaefer@cbsupplies.ca.

Thank you
