# Circuit Protection Products

## Circuit Protection Devices

Circuit protection devices are used to protect wires and electrical components from being damaged by excess current flow caused by an overload or a short-circuit electrical fault. Excess current flow causes excess heat, which is detected by circuit protection devices causing them to open the circuit preventing further over-current to flow.

Fuses, fuse elements, fusible links and circuit breakers are all examples of circuit protection devices. Circuit protection devices are available in a variety of types, shapes, and current ratings.

### Fuses

Fuses are the most common protection devices in automobile applications. A fuse contains a thin metal element that melts away when it is heated by excessive current flow consistent with an overload or short circuit electrical fault. When the fuse element melts, it interrupts the electrical circuit to open, preventing further over-current flow. A fuse is often said to have "blown" when it's element melts. When a fuse element melts it must be replaced with a new one.

### Fuse Types

Fuses are classified into basic categories: blade/plug-in type, glass type, cartridge type and bolt-on/stud mount type fuses. There are several variations of each that are used.

Blade type fuses are the most commonly used circuit protection device. There are different types of blade fuses that exist; Maxi, Standard, Mini, Micro and even those have different options (Low

Profile, LED, 2 & 3-Blade). These are all colour coded to facilitate amperage identification.

### Circuit Breakers

While circuit breakers are less common in automotive applications, they are often used instead of fuses for the protection of complicated power circuits such as the power windows, sunroofs and heater circuits. Like fuses, circuit breakers react to the heat generated by an overload or short circuit fault. Instead of melting a fuse element, the bi-metal in the circuit bends as the heat increases, ultimately opening the circuit and interrupting the current flow. Depending on the "type" of circuit breaker used, it resets automatically after the bi-metal has cooled and returns to its original state, or manually by pressing a button or toggling a lever.

Circuit breakers are usually located in relay/fuse boxes; however, some components like power window motors have circuit breakers built in.

### Fuses vs Circuit Breakers

Fuses and circuit breakers have different advantages and disadvantages that automotive engineers must consider for the specific circuit application they are designing. Fuses are less costly, whereas circuit breakers are more convenient for the end user. However, from an aftermarket perspective, normally a fuse will be replaced by a similar fuse, and a circuit breaker by a similar circuit breaker.

# Circuit Breakers

**CIRCUIT BREAKERS, PAGES 5-13. FUSES & FUSE ACCESSORIES CAN BE FOUND ON PAGES 16-35**

## Understanding Type 1, Type 2 & Type 3 Circuit Breakers

|               |                 |   |
|---------------|-----------------|---|
| <b>Type 1</b> | Automatic Reset | Cycles continuously during a current overload. The composite alloy material will bend & separate the contacts when an overcurrent situation occurs and return to the run mode as it cools. This process will continue until the source of the overload is removed or corrected.   |
| <b>Type 2</b> | Modified Reset  | Unlike Type 1, Type 2 circuit breakers have an additional resistive component built into it that raises the ambient temperature within the circuit breaker. This limits the number of cycles (less than 10) by not allowing the composite alloy to cool and reset the circuit. The circuit will remain open with less than 1A current flow as long as voltage is applied. |
| <b>Type 3</b> | Manual Reset    | Introduces a non-current carrying object between the contacts when the contacts are open. To reset the contacts, an external button or lever must be activated to return to normal operation.   |

## Quick Disconnect Blade Terminals or Stud Terminals... which connection is better for your application?

| Terminal Type                                    | Description   | Typical Applications   |
|--|---------------|--|
| <b>Quick Disconnect/Blade Terminals</b>          | 2 x .250" Tab | Buses, Conversions, Off-Road, RV. Also known as "Plug-In Circuit Breakers" |
| <b>Stud Terminals with Lock Washer &amp; Nut</b> | 2 x #10-32    | High vibration and cramped areas   |

## Metal Housing or Plastic Housing

**SHORTING OUT:** If a wire should loosen from a terminal on a circuit breaker made with a plastic housing, it will not short-circuit against the housing as it could do with a circuit breaker made with a metal housing.

**VIBRATION:** Plastic housings with mounting brackets are one-piece molded and are less prone to vibration. Metal housings with mounting brackets are of two-piece design where the bracket is attached by spot welding and can be loosened by constant vibration.

**WEIGHT:** Circuit breakers made with plastic housings versions weigh less than those made of metal housing.

## Typical Applications for Circuit Breakers

- Accessory Circuits
- Cooling fans
- Door locks
- Headlamps
- Sunroof
- Tail lamps
- Trailer package
- Window Lifts

### What's New?

- Thermal Circuit Breakers
- 'Maxi' Blade Fuse-Type Circuit Breakers (Auto & Manual Reset)
- Standard Blade Fuse-Type Circuit Breakers (Auto Reset)
- 'Mini' Blade Fuse-Type Circuit Breakers (Auto Reset)

### Expanded offering on:

- ALL Surface Mount/Manual Reset High Amperage Circuit Breakers now available in a cost-saving Bulk Quantity option

*If you are looking for a Circuit Breaker that you don't see in this catalogue, we have lots more from which to choose. Check out the Cole Hersee or Pollak catalogues!*

# Circuit Breakers

## Thermal Circuit Breakers

- Maximum 32VDC
- Black Plastic Button
- Requires 0.450" Mounting Hole
- Includes Knurling Nut & Identification Plate
- 1/4" Terminals
- Interrupting capacity: 2500A @ 32 VDC, 1000A @ 125VAC, 500A @ 250VAC
- Operating Temperature: -10°C to 60°C
- CSA & UL Approved

| 1000%      | 0.50 to 3.4 Sec.      | -                      |

# Circuit Breakers

## High Amperage Circuit Breakers

High Amperage Circuit Breakers are typically used in auxiliary and accessory circuits for Trucks, Buses, RVs and Marine applications (12-30 Volts). Other applications may include battery charger systems as well as DC audio systems. Rated at **IP67**, they also contain stud insulators to protect from dust, dirt and moisture. Housings are manufactured with Thermoset plastic (UL rated 94VO) 155°C (311°F). Manual Reset Circuit Breakers feature a unique and simple reset mechanism that also provides an easy indication of an open circuit... the lever becomes visible. To reset, all that is needed is a simple push of the red button. Compliant to SAE J1625. 1/4" diameter studs.

**Temperature Ratings:**  
 Operating: -32°C (-25°F) to 82°C (180°F)  
 Storage: -34°C (-30°F) to 149°C (300°F)

# Circuit Breakers

## Circuit Breakers (Stud Terminal)

- Universal
- 2 x #10-32 Stud Terminals
- Conforms to SAE J553

**Temperature Ratings:**  
 Operating: -23°C (-9°F) to 65°C (149°F)  
 Storage: -29°C (-20°F) to 93°C (199°F)

**Note:** Contrary to the Auto & Manual Reset versions, where a 24V Circuit Breaker can be used in a 12V application, the specified voltage of a Modified Reset Circuit Breakers must match the voltage of the application. For example, 12V Circuit Breakers for 12V applications. Contact Techspan if you require other voltages.

# Circuit Breakers

## Circuit Breakers (Stud Terminal)

- Universal
- 2 x #10-32 Stud Terminals
- Conforms to SAE J553

**Temperature Ratings:**  
 Operating: -23°C (-9°F) to 65°C (149°F)  
 Storage: -29°C (-20°F) to 93°C (199°F)

**Note:** Contrary to the Auto & Manual Reset versions, where a 24V Circuit Breaker can be used in a 12V application, the specified voltage of a Modified Reset Circuit Breakers must match the voltage of the application. For example, 12V Circuit Breakers for 12V applications. Contact Techspan if you require other voltages.

Save time & money replacing burnt-out fuses

### Vehicle Replacement Guide

| Terminal Position   | Manufacture  |
|---------------------|--|
| Terminal Position A | Ford Pickup Trucks   |
| Terminal Position B | Dodge Trucks<br>Ford Trucks (Heavy)<br>Navistar (IHC) Trucks |
| Terminal Position C | Kenworth Trucks  |

### Blade Type Circuit Breaker & Fuse Panels

- For Blade Terminal Circuit Breakers & Standard Blade Fuses
- 0.250" Tab Blade Terminals
- #10-32 stud terminal with hex nut, flat washer and lock washer (Tin plated Copper)
- 4 x 5.5mm diameter mounting holes for #10 screws
- Dimensions: 3.38"W x 0.81"H
- Rugged, yet compact & lightweight construction (thermoplastic)
- Maximum amperage per circuit: 25A
- Maximum amperage per block: 100A
- Maximum Voltage: 32VDC

## Fuses & Fuse Products

**\*NEW**

### What's New?

- "Maxi" Blade Fuses for Applications up to 80VDC
- Standard Blade Fuses for Applications up to 80VDC
- Inline Fuse Holders for 80VDC Fuses (with Cover)

### Expanded offering on:

- Assortment Kits
- Bolt-On, High Amperage Fuses
- Cartridge Fuses
- Fuse Holders for Glass Fuses
- Inline Fuse Holders with Clear coloured Holder (with Clear Cover)
- PAL Fuses, Female and Male
- Panel Mount Fuse Holder

Pictures of fuses in this catalogue were taken at actual size. To help determine your existing fuse, simply place it on the closest looking picture and match the size.

**Found a match!**

## Blade Fuses

- Maximum 32VDC rating
- Zinc alloy
- Universally colour-coded for easy amperage identification
- Features an enclosed element that offers protection against shocks & sparks
- Corrosion resistance for a longer service life

| Rating | Blow Time        |
|--------|------------------|

See page 21 for Fuse Holder especially made for 80VDC Standard Blade Fuses

## Fuse Tools, Fuse Panels

### Fuse Pullers/Testers

Fuse Puller/Tester is easy to use. If the fuse is functional, the LED will light up. If the fuse is blown, the LED will not light up. Approximate length, including pins: 2-5/8" (66.67mm)

**764208** For Standard Blade Fuses

**764209** For Mini Blade Fuses

Fuse Pullers/Testers

### Fuse Pullers

Fuse Pullers for Blade & Glass Fuses. Fuses not included.

**764206** Long. Approximate length: 4-1/8" (104.78mm)

**764207** Short. Approximate length: 2" (50.40mm)

Fuse Pullers

### Blade Type Circuit Breaker & Fuse Panels

- For Blade Terminal Circuit Breakers & Standard Blade Fuses
- 0.250" Tab Blade Terminals
- #10-32 stud terminal with hex nut, flat washer and lock washer (Tin plated Copper)
- 4 x 5.5mm diameter mounting holes for #10 screws
- Dimensions: 3.38"W x 0.81"H
- Rugged, yet compact & lightweight construction (thermoplastic)
- Maximum amperage per circuit: 25A
- Maximum amperage per block: 100A
- Maximum Voltage: 32VDC

|---------|--------|-----------------------|-----------|
| 16-14GA | Blue   | 1A to 20A             | 764103    |

### 'Add-A-Fuse' Blade Fuse Taps

• Maximum Amperage per Circuit: 10A • 16GA Red Wire

**Turns 1 Circuit into 2 Circuits in 5 easy steps:**

- ① Unplug the existing fuse
- ② Plug in the new fuse holder
- ③ Re-insert the fuse in to the new fuse holder
- ④ Add the new circuit
- ⑤ Add an additional fuse for a new circuit

## Glass Fuse Accessories

### Fuse Holders for Glass Fuses

Nylon fuse holders for glass tube fuses. Designed for all 6 & 12 Volt systems. Protects electrical equipment such as lighting, heaters, stereo equipment, etc. All current carrying parts are made of copper or brass. Contact spring accommodates most glass fuses. SFE fuses are included as shown in the chart below. All wire leads are an 8" (203.2mm) loop

| SFE Fuse Supplied | GA Size | Colour of Wire | Colour of Holder | 1 PC/PK | 25 PCS/PK |
|-------------------|---------|----------------|------------------|---------|-----------|
| No Fuse           | 16GA    | Black          | White            | *664078 | *764078   |
| 9A                | 16GA    | Black          | White            | 664081  | 764081    |
| 14A               | 16GA    | Black          | Red              | 664082  | 764082    |
| 20A               | 14GA    | Black          | Black            | 664083  | 764083    |
| 30A               | 12GA    | Orange         | White            | 664084  | 764084    |

### Panel Mount Fuse Holder (Fuse not Included)

**766042** For SFE & 3AGC Fuses. 10A @ 250VAC. Spring loaded bottom contact. Finger grip type knob with nickel-plated copper alloy insert. Bakelite insulation withstands 2000VAC R.M.S. for one minute. Nickel-plated, copper alloy solderable terminal. Mounts in a 1/2" (12.7mm) diameter hole

**766042B** Same as **766042**, except 25 pieces per pack

**766042 Panel Fuse Holder with Solder Terminals**

### Fuse Pullers

Fuse Pullers for Blade & Glass Fuses. Fuses not included.

**764206** Long. Approximate length: 4-1/8" (104.78mm)

**764207** Short. Approximate length: 2" (50.40mm)

## Battery Fuses & Accessories

### Battery Fuses

- 58 VDC
- Complies with: ISO 8820-6, DIN 72581-5, UL 248 (Special Purpose Fuses)

| Amperage | Colour | 1 PC/PK |
|----------|--------|---------|
| 50A      | White  | 766569  |
| 75A      | White  | 766571  |
| 100A     | White  | 766573  |
| 125A     | White  | 766574  |
| 150A     | White  | 766575  |
| 200A     | White  | 766577  |
| 250A     | White  | 766579  |
| 300A     | White  | 766580  |

762695

762694

762696

### Battery Fuse Accessories

#### Battery Terminal

- 762695** Universal Battery Terminal with extra long stud. Designed to be used with Battery Fuses. Made of Brass. 10 PCS/PK

#### Insulated Nut

- 762694** Insulated Nut to hold down Battery Fuses onto the **762695** Battery Terminal. Made of Polymer (PPS). 10 PCS/PK

#### Battery Terminal & Insulated Nut Set

- 762696** Consists of 1 x **762695** Battery Terminal and 1 x **762694** Insulated Nut. Battery Fuse not included

**Use Battery Fuses in combination with the Battery Terminal & Insulated Nut Set!**

## ANL Fuses

### ANL Fuses

For applications up to 32VDC, these higher amperage fuses are typically used in the Forklift industry. Gold plated terminations. Housing colour may vary.

| Amperage | Colour | 1 PC/PK |
|----------|--------|---------|
| 100A     | White  | 766830  |
| 150A     | White  | 766831  |
| 200A     | White  | 766832  |
| 250A     | White  | 766833  |
| 300A     | White  | 766834  |
| 400A     | White  | 766835  |
| 500A     | White  | 766836  |

*Fuse not included. Fuse shown for illustrative purposes only.*

## Bolt-On Fuses

### Bolt-On, 'Mid'-Amperage Fuses

- Maximum 32VDC rating
- Polyimide 66 thermoplastic housing
- Tin plated copper alloy terminations
- Fuses are colour coded for easier amperage identification
- Transparent window on one side of the fuse
- Hole Diameter: 5.5mm
- 1-3/16" (30mm) centre to centre

| Amperage | Colour | 1 PC/PK | 25 PCS/PK |
|----------|--------|---------|-----------|
| 30A      | Orange | 766157  | 766157Q   |

Bolt-On, 'Mid'-Amperage Fuses

### Fuse Holder for 'Mid'-Amperage Bolt-On Fuses

Fuse Holders, Clear Cover included

| Description                       | 1 PC/PK | 25 PCS/PK |
|-----------------------------------|---------|-----------|
| For 'Mid'-Amperage, Bolt-On Fuses | 666150  | 766150    |

666150

Fuse not included. Fuse shown for illustrative purposes only.

## 'PAL' -Type, Auto Link Fuses

Also known as PAL Fuses, Auto Link Fuses are commonly found on vehicles where the protected current rating reaches 140A. Techspan PAL Fuses meet spec JASO D614. Most PAL-type fuses vary in colour to facilitate identification of each amperage. For applications up to **32VDC**. They are available in the following forms:

- Female Terminations (Regular & Mini)
- Female Terminations with Locking Tab
- Male Terminations
- Male Terminations with bent connectors (Long & Short)

PAL – Female Terminations Auto Link Fuses

### PAL Fuses – Female Terminations (Regular)

| Amperage | Colour | 1 PC/PK |
|----------|--------|---------|
| 20A      | White  | 766846  |
| 30A      | Pink   | 766847  |
| 40A      | Green  | 766848  |
| 50A      | Red    | 766849  |
| 60A      | Yellow | 766850  |

### PAL – Female Terminations (Mini)

| Amperage | Colour | 1 PC/PK |
|----------|--------|---------|
| 30A      | Pink   | *766902 |
| 40A      | Green  | *766903 |

PAL – Female Terminations 'Mini' Link Fuses

### PAL – Female Terminations (with Locking Tab)

| Amperage | Colour | 1 PC/PK |
|----------|--------|---------|
| 25A      | Brown  | 766855  |
| 30A      | Green  | 766856  |

PAL – Female Terminations (with Locking Tab) Auto Link Fuses

## 'PAL' -Type, Auto Link Fuses

### PAL – Male Terminations (Straight)

| Amperage | Colour | 1 PC/PK |
|----------|--------|---------|
| 20A      | White  | 766863  |
| 30A      | Pink   | 766864  |
| 40A      | Green  | 766865  |
| 50A      | Red    | 766866  |
| 60A      | Yellow | 766867  |
| 70A      | Brown  | 766868  |
| 80A      | Black  | 766869  |
| 100A     | Blue   | 766870  |
| 120A     | Grey   | 766871  |

PAL – Male Terminations (Straight) Auto Link Fuses

### PAL – Male Terminations (9/16" Bent)

| Amperage | Colour | 1 PC/PK |
|----------|--------|---------|
| 30A      | Pink   | 766873  |
| 40A      | Green  | 766874  |
| 50A      | Red    | 766875  |
| 80A      | Black  | 766878  |
| 100A     | Blue   | 766879  |
| 120A     | Grey   | *766880 |

PAL – Male Terminations (9/16" Bent) Auto Link Fuses

### PAL – Male Terminations (13/16" Bent)

| Amperage | Colour | 1 PC/PK |
|----------|--------|---------|
| 30A      | Pink   | 766882  |
| 40A      | Green  | 766883  |
| 50A      | Red    | 766884  |
| 60A      | Yellow | 766885  |
| 70A      | Brown  | 766886  |
| 80A      | Black  | 766887  |
| 100A     | Blue   | 766888  |
| 120A     | Grey   | 766889  |

PAL – Male Terminations (13/16" Bent) Auto Link Fuses

# Relays

## SELECTING THE CORRECT RELAY

**“Form A” (SPST):** Contacts are normally open when the coil of the relay is not energized or there is no magnetic field nearby in a reed switch.

**“Form C” (SPDT):** Contains 3 leads and would have 1 normally open and 1 normally closed circuit. This is also called a “changeover” device because the common contact changes from the normally closed position to the normally open position when the coil is energized in a Relay or a magnetic field is nearby.

SPST – Single Pole, Single Throw

SPDT – Single Pole, Double Throw

**Note:** Non-Sealed Relays are supplied with a snap-in bracket  
 Relays without seals can be used with or without the bracket.

**Contacts:** Normally Open (NO), Normally Closed (NC)

**Contact Material:** Silver alloy

**Voltage:** 12, 24 VDC

**Amperage:** N.O. 20A N.C. 15A  
 N.O. 40A N.C. 30A  
 N.O. 70A N.C. 60A

### Relays

### Relays with 5-pin pigtails

764408

764409

764410

### Pigtail for 5-Pin Relays

**764410** Universal, 5-wire pigtail connector for 5-pin relays. Red & White wires are 18GA. Blue, Green & Yellow wires are 16GA.

**764410B** Same as **764410**, except 10 pieces per pack

## Circuit Protection Products – Merchandising & Storage

Introducing our revamped “Mini Flip Kit” Series of Circuit Protection Products!

Your choice of:

**Fleet Series**

**On-The-Go Series**

Our Fleet Series Fuse Kits have a large quantity of fuses, ideal for distributors

Our new budget friendly fuse kits are perfect when you just need the right fuse on the go! These kits come with an assortment of essential fuses so you have what you need to get the job done.

**Fleet Series:** Contain a larger quantity of Fuses for added convenience to the end user/installer

**On-The-Go Series:** Contain a lesser quantity of Fuses for smaller initial investment

These symbols are located beside each kit in this catalogue to indicate the series of the Mini Flip Kit

**763030** Wall Mountable Display/Storage Panel

### Wall Mountable Display/Storage Bin Panel

An excellent storage solution that helps you display and/or organize small electrical parts. You can hang this rack up on a wall or on our new Grid Display Panel. Each of the 15 compartments has a small slot in front of it that will allow you to put a small reorder tag/product identifier so that you'll always know what is in each compartment! Overall dimensions: 22-1/2"W x 22"H.

**763030** Wall Mountable Display/Storage Panel

## Merchandising/Storing

### Fuse Merchandiser (Counter-Top)

**768187** 4-Sided Countertop Merchandiser contains popular Automotive Blade Fuses, Glass Fuses and Fuse Pullers. Help increase your Point-of-Purchase sales by investing on one of these. Hooks, reorder tags, header sign and product plan-a-gram are included.
