

InnoFlue®

Polypropylene Vent Systems

Industry Leading 10" and 12" Diameter Vent Lengths

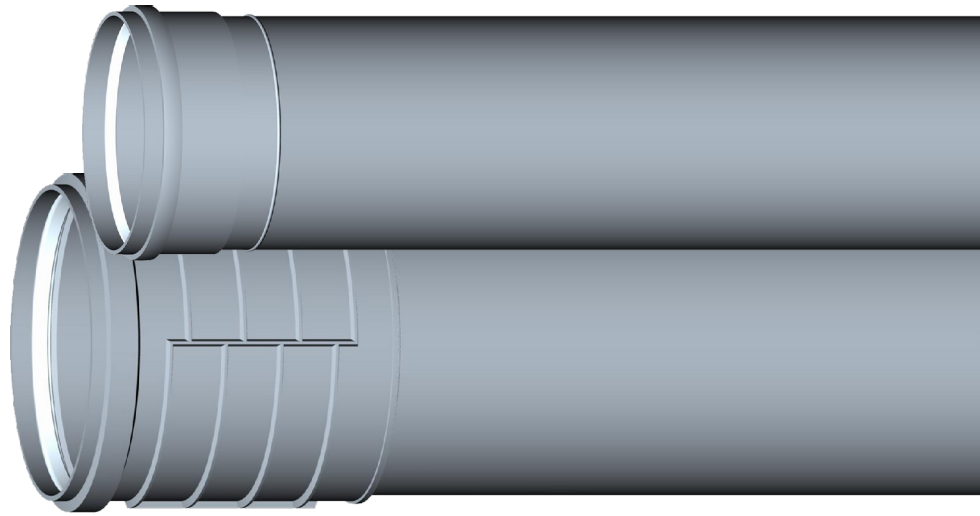

Centrotherm already offers the longest UL1738/ULCS636 effective vent lengths on the market, and we are pleased to introduce InnoFlue 10' effective lengths in 10" diameter and 9' effective lengths in 12" diameter.

Longer lengths means less time at the wholesaler, less time on the job, and less components overall. These lightweight vent lengths augment an already robust commercial product offer.

Contact your rep or sales manager about the new commercial diameter longer vent lengths!

Go further with the **longest** polypropylene vent lengths on the market.

UL-1738
