B3X — Peace of Mind on the Jobsite

Coordinating multiple trades to achieve a waterproof shower installation can prove daunting. Designed for projects with tile requirements, B3X offers superior water management features such as integrated weep holes, taller tiling flanges, as well as lower and narrower side decks that create an additional water barrier and restrict water accumulation.

B3X Features:

- 1. Integrated weep holes: Provides superior water management in tile applications
- 2. 2 1/2" high tiling flanges: Added protection from water migration
- 3. Narrower deck: Less surface area to collect water
- 4. Low 3 1/4" threshold
- 5. ABS Square center drain included (Optional PVC)
